

MAHA-SHIVARATRI - MANAGEMENT LESSONS

By

Prof. Raj Mohinder Pal Verma

Mahashivaratri has great significance in Indian System of Management.

With our two eyes we see the external environment and Eco system or the results of our actions or extent of achievement of goals / targets.

Shiva's third eye significance is that we should look inward and do introspection of all our plans, actions a sort self feedback. Based on that we modify our plans, actions etc.

Shivaratri comes every month and we should do monthly review and Mahashivaratri is for Annual Review. Shivaratri is always (Shubh Lagna) auspicious time for introspection.

One can increase introspection power through meditation and invoking the Ajna the Third Eye Chakra through Om Meditation. So many techniques are available on net.

As a Management Leader it will increase Decision Making and Intuition Power.

(Message is part of promoting journey towards Indian System of Management)
